INTMA Plant Tour Event!

Improving Your Workforce
…What You Need to Know

Date: Wednesday, March 14, 2012
Time: 10:00 A.M. – 1:00 P.M.
Place: **Vincennes University (Vincennes, IN)**

Topic of Focus: One of the biggest challenges facing tooling and machining executives is finding qualified personnel who are able and willing to work. Creating, training, and maintaining a skilled workforce is paramount to sustaining this industry. The INTMA has teamed up with Vincennes University to bring you our next plant tour event. This event will be held at Vincennes University located in Vincennes, Indiana and will focus on educational collaboration.

VU houses the Haas Technical Education Center which is a state-of-the-art facility with several dedicated master instructors and more than 10,000 square feet of dedicated shop space. This allows Vincennes University to use a real 'learn it-do it' approach which produces work-ready, highly-skilled manufacturing technologists, and students have the opportunity to receive NIMS credentialing. Come learn how VU plans to develop on-going advanced programs and specialized teacher training and how this process is preparing students to meet the future needs of the machine tool industry.

Benefits of Attending: Attendees will have the opportunity to tour VU's machine tool department as well as engage in cross talk with both instructors and other machining professionals. Evaluate the advantages of working with an educational partner and how it can influence the talent base to which you have access. Vincennes University is investing in the future of the machining industry; are you? Since people are your most valuable asset, discover how to attract, develop, and maintain talent as your business moves into the future.
